will be served.

Greg & Terri (Bresford) Novini  
India

“Our ministry is **‘Women in Focus Evangelism’** (W.I.F.E.) We are developing media ministries in the second largest nation in the world among Bible colleges and churches. This includes television and magazine ministry in India!”

Greg and Terri (Bresford) Novini are returning to India for Terri's third term and Greg's first. Initially, Terri went to India as a single missionary with a vision for ministry among Indian women. She hosted the first-ever National Women's Leadership Conference with over 100 district superintendents and 5000 women attending. This helped to launch Women's Ministries in India at a national and district level.

Since then Terri has launched "**Women in Focus**", a bilingual magazine. This magazine is now fully indigenous written solely by Indian writers, with funds coming from Indian sources. She also has helped to release the pilot television program "**Women in Focus**."

Greg plans to focus on training men to be priests of their homes as Galatians 5 instructs. In a nation where 3000 baby girls are murdered daily; 25,000 brides burned due to dowry demands; and 1 million child prostitutes, this is **critical** to building the Church and the Christian home. Please pray for the Novinis as they continue the ministry of "**Women in Focus Evangelism**" and launch "**Call to be Priests Conferences**".
